**DETAILED ACTION**

***Response to Amendment***

1. In view of applicant's amendment filed 28 September 2006, rejections under 35 U.S.C. § 112 2<sup>nd</sup> paragraph, are withdrawn.

***Allowable Subject Matter***

2. Claims 7, 8, 24, 39, 47, 49, 55 and 56 are allowed over the Prior Art of record.
3. The following is an examiner's statement of reasons for allowance: The primary reasons for allowance of the independent claims 7, 24, 39, 49, 55 and 56 is the inclusion of the specific ***temperature range of 60 °F to 130 °F of a housing interior via a temperature controller that controls the temperature within the housing and a semi-conductor heating and cooling device*** (emphasis added) in a method and apparatus/system for providing/producing gases for calibration in combination with the other recited elements and/or method steps.
4. The closest reasonable Prior Art reference is US 5,457,983 to Sauvageau et al. which discloses an apparatus and method for producing a reference gas, however, fails to disclose the particular temperature range above, along with many of the recited elements and/or method steps within the instant claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2856
